on Pentecost Monday, June 7, for

Mr. Joseph Staacke, who lives
near Bloomsdale, was robbed of
\$85 last Saturday night. Mr.
Staacke arrived from St. Louis
on that night, placed the money
in the wardrobe and the next
morning the package of money
was missing. It is supposed the
thief effected an entrance by
breaking open one of the doors
as the lock was found to be
broken next morning.

PICNIC.—A grand pic-
nic for the celebration of the
Nation's birthday will be held at
DAUMSTARK'S PARK Saturday,
July 2, by the J. Felix St. James

all the stands for entertainment

fireworks will illuminate the pa-
triotic scene. Everybody is cor-

Weekly Crop Bulletin.
COLUMBIA, Mo., June 1, 1907.
The Weekly Crop Bulletin issued
today by the Missouri Section, Cli-
mate and Crop Service, Weather
Bureau, says:

In all sections of the state the tem-
perature during the past week aver-
aged considerably below the normal
and light frosts occurred in some
localities, though little or no damage
is reported. The precipitation was
moderate in character and unevenly di-
tributed, but over the greater por-
tion of the state the total for the week
exceeded 1 inch, and in some localities
in the west central and northwest
sections it exceeded 2 inches. In
few of the northern and a number
of the southern and southeastern
counties, however, the rainfall was
in some localities there was a
number of counties crops are
suffering from drought and a good rain
is very badly needed. The rains have
been of great benefit to all growing
crops, though in some localities they
interfered considerably with farm
work.

Corn has been greatly damaged by
moles and cut worms in many places,
and there is much replanting yet to be
done on that account, but otherwise
the crop is generally in good condi-
tion though its growth has been
greatly retarded by the cool nights.
Planting is not yet completed in some
of the northern counties. In a few
localities in the northwestern coun-
ties considerable damage was done to
corn fields by the heavy washing
rains.

Many correspondents report that
wheat has improved since the rains,
but chinch bugs are doing much dan-
age in places. In the extreme southern
counties wheat is beginning to turn
and harvest will commence in about
10 days. Oats and meadows have
been considerably damaged by drought
in some districts, and in quite a
number of counties they are badly in
need of more rain. Clover is about
ready to cut in some sections. Oats
are beginning to head and there is
some complaint that they are heading
short. The low temperature has been
unfavorable to cotton. Flax is gen-
erally doing well. Gardens, potatoes
and small fruits are doing nicely as a
rule, but tree fruits are still drop-
ping in places.

W. B. Johnson, Newark, O., says:
"One Minute Cough Cure saved my
only child from dying by croup." It
has saved thousands of others suffer-
ing from croup, pneumonia, bronchi-
tis and other serious throat and lung
troubles. R. W. Lanning, Ste. Gene-
vieve, E. S. Lawbaugh, St. Mary's.
